

Exol Athena HD80W-90 Gear Oil 1 Litre G014S534

Part No: G014S534

Price: £5.46 (exc VAT) | £6.56 (inc VAT)

Specifications

Exol Athena HD80W-90 Gear Oil 1 Litre G014S534

Athena LS 80W-90 is a specially formulated extreme pressure gear oil for use in limited slip differentials.

Athena HD multigrades are universal extreme pressure gear oils meeting the API performance levels GL-5 and GL-4.

The introduction of the limited slip differential introduced further requirements for lubricants.

The use of multipurpose gear oils did not prevent the chatter and slip stick operation of the clutches.

Athena LS 80W-90 gear oil is manufactured from high quality base oils, performance EP additives and specially selected friction modifiers to provide a lubricant with the exacting requirements for limited slip operations.

Specifications:

SAE 80W-90

API GL-5 Military

Mil-L-2105D

Benefits

Reduces whining and chattering ?

Excellent high temperature stability ?

Ensures clutches slide smoothly ?

Extreme pressure properties
