Hobbyweld 15 Welding Gas 9L Bottle

Part No: HWMIX15

Price: £41.29 (exc VAT) | £49.55 (inc VAT)

Specifications

HWMIX15 Hobbyweld 15 Welding Gas 9L Bottle

Argon gas with a 15% carbon dioxide content; the extra CO_2 gives this gas the capability of MIG welding steel between 5mm and 18mm thick.

Welders will experience good arc stability, due in part to the 2% oxygen content.

The combined benefits of good welding performance and minimal spatter make it very popular among the agricultural, on-site and mobile welding market.

The wide operating range makes Hobbyweld 15 the best choice for structural steel work, medium gauge plate and general fabrication.

Rent free gas cylinders; simply pay a one off deposit for your first cylinder and first gas fill, keep it for as long as you need and then refill it as often or as little as you like.

Deposit is refundable on return of the bottle. (Must be returned with deposit form)

****Please note that Hobbyweld Gas products are for collection at our shop only****

Optional Extras

Deposit Hobbyweld Original
