Specifications

HWMIX5 Hobbyweld 5 Welding Gas 9L Bottle

Argon gas with a 5% carbon dioxide content.

Ideal for MIG welding sheet metal and thin sections of mild steel under 7mm in thickness, such as car bodywork and light sheet metal work. It is easy to use and provides a sound weld with very little splatter.

Rent free gas cylinders; simply pay a one off deposit for your first cylinder and first gas fill, keep it for as long as you need and then refill it as often or as little as you like.

Deposit is refundable on return of the bottle. (Must be returned with deposit form)
