

Hobby Oxygen Gas Original 9L

Part No: HWOXYGEN

Price: £37.50 (exc VAT) | £45.00 (inc VAT)

Specifications

HWOXYGEN Hobby Oxygen Gas Original 9 Litre

This gas is commonly and traditionally used with a fuel gas (propane, acetylene or propylene) for cutting, welding, brazing and soldering.

Oxygen supports the combustion of these gases and enables a much higher flame temperature to be achieved in comparison with air.

Combine this gas bottle with our Hobbyweld acetylene cylinder for the perfect portable rent free gas welding kit.

Rent free gas cylinders; simply pay a one off deposit for your first cylinder and first gas fill, keep it for as long as you need and then refill it as often or as little as you like.

****Please note that Hobbyweld Gas products are for collection at our shop**
