

HWPARGON Hobbyweld Argon Plus (20L)

Part No: HWPARGON

Price: £115.83 (exc VAT) | £139.00 (inc VAT)

Specifications

HWPARGON Hobbyweld Argon Plus (20L)

Argon

Generally used when TIG welding stainless steel, carbon steel and aluminium -

it can also be used on a MIG welder for aluminium and alloys in conjunction with the correct MIG wire.

Argon is typically suitable for most TIG welding applications providing a capability of welding at any depth.

The repair of alloy wheels, farming equipment, vehicle body panels, model work and metals used for aircraft are among many of Argon's popular uses;

however, it is also used in many applications that you wouldn't expect, such as filling the gap between your double glazing and the space in a light bulb.
