

HWPMIX15 Hobbyweld 15 Plus (20L)

Part No: HWPMIX15

Price: £84.17 (exc VAT) | £101.00 (inc VAT)

Specifications

Hobbyweld 15 Plus 20 Litre size

(83% Argon, 15% Carbon Dioxide, 2% Oxygen)

As this gas has been given the name 'universal' gas by customers, this shows that the gas can be used for many applications.

This gas mix contains a higher CO₂ content than the Hobbyweld 5 so offers combined benefits of good welding performance and minimal spatter make it very popular among the agricultural, on-site and mobile welding market.

Hobbyweld 15 is recommended for use with mild steel at a thickness of over 7mm.

This gas is used in structural steel work and general fabrication.
