

Hobbyweld 15 Welding Gas 20L Bottle

Part No: HWUMIX15

Price: £103.75 (exc VAT) | £124.50 (inc VAT)

Specifications

HWUMIX15 Hobbyweld 15 Welding Gas 20L Bottle

Argon gas with a 15% carbon dioxide content; the extra CO₂ gives this gas the capability of MIG welding steel between 5mm and 18mm thick. You will find this gas easy to use and with the built in regulator of the Ultra cylinder, you'll find it just as easy to adjust your flow rate.

The push fit system makes it an ideal choice if you're out on the road and working on-site a lot as it takes literally seconds to connect.

If you're gas welding heavy duty jobs, this is the cylinder for you!

The Ultra range comes with Built in regulator with pressure and flow gauge.

Quick action coupling

Equivalent capacity of a 30L cylinder rent free gas cylinders; simply pay a one off deposit for your first

cylinder and first gas fill, keep it for as long as you need and then refill it as often or as little as you like.

Deposit is refundable on return of the bottle. (Must be returned with deposit form)

****Please note that Hobbyweld Gas products are for collection at our shop only****
