Specifications

HY02-00944 SIP 01157 Pad Coil Inclined

The SIP Pad Coil Inclined is a replacement item available for the SIP 3700w Induction Heater (01157).

Features

Designed to offer additional functionality to the induction heater torch, this useful item allows a user to treat metal at an inclined angle.

This particularly useful when carrying out repeatable treatment tasks for consistent quality of work.

Easy-to-control and highly efficient, induction heating is ideal for a variety of heat treatment tasks in automotive, engineering and manufacturing applications. Using an all-electric process, it offers greater levels of safety compared to oxyacetylene and other naked flame methods.

Allows metal to be treated at an inclined angle

Useful when carrying out repeatable treatment tasks

Designed to offer additional functionality to heater torch
