Part No: LED0121R

Price: £39.95 (exc VAT) | £47.94 (inc VAT)

Specifications

LED0121R COB LED Inspection Lamp & Torch Rechargeable

This great modular light system features a base unit handle with quick change facility allowing you to install either the 350 Lumen Inspection lamp or 250 Lumen Torch in seconds.

Powered by a 3.7v Li-ion battery, the unit can be charged from a mains charger which has a standard USB plug input and is supplied with a standard type USB cable, charging takes four hours from the included mains charger.

The slim wand Inspection lamp allows easy access whilst still providing ample light.

The Torch unit gives you wider spread illumination.

With a magnetic disc built in to the base for easy attachment to iron and steel, allows you to use the unit hands free, which is useful for many work situations.

A great value light set which saves you potentially £££'s on buying batteries.

- Innovative two in one work light.
- Quick release function enables user to change between 250 lumen torch with sliding focus, and a slimline 350 lumen COB inspection lamp with 180° tilt function, which also features an additional LED for use as a directional torch.
- Features a power indicator on the switch and a magnet on the base for hands free operation.
- Supplied in a presentation box with a high quality USB cable and mains charger.
