

LM90R Line Marking Spray Red

Part No: LM90R

Price: £9.70 (exc VAT) | £11.64 (inc VAT)

Specifications

LM90R Line Marking Spray Red 0.75 Litre

Line Marker paint is packed in a large 750ml aerosol.

A dense paint with excellent coverage that is water resistant when dry.

LM-90 is a very versatile road marking coating paint.

LM-90 can be used on concrete, stone, tarmac, grass, gravel, soil, glass, pavement and metal.

LM-90 line marking paint spray is long lasting bright colour with high quality pigment.

LM-90 can be used in an inverted position applied by hand but also fits all popular line marking paint spray application machines such as transfer wheel and aerosol applicator.

Ideal for marking identification lines, road marking, construction marking and pavement marking.

Used in an inverted position for simple and quick application. When dry the product is suitable for

survey work, road repair or the marking of car parks, car parking bays, railways, ports, factories, and schools.

It is also used on stair-treads, roads, tennis hard courts factories, kerbs, warehouses and runways.
