Specifications

Exol Optima C1 LSZ 5W-30 Engine Oil Low Saps - Fully Synthetic 25 Litre M413D00

A new generation low SAPS engine oil offering significant fuel saving benefits. Provides very high levels of engine cleanliness combined with shear stable additive technology. Developed particularly for Mazda vehicles but also suitable for use in certain Jaguars and Land Rovers and where any of the following specifications are required. Approved to Ford specification WSS-M2C934-B.

Optima LSZ 5W-30 has been developed to enable outstanding performance to be provided along with effective emission control and full compatibility with emission control after treatment systems.

Low SAPS (sulphated ash, phosphorus and sulphur) additive technology ensure optimum performance of emission control equipment including particulate filters, at the same time providing long term emission system protection, ensuring a high level of continuous pollution control thereby minimising environmental damage.
