Clean Air AdBlue 1000 litres IBC PD430IBC

Part No: PD4303IBC

Price: £469.95 (exc VAT) | £563.94 (inc VAT)

Specifications

Clean Air AdBlue 1000 Litre IBC PD430IBC

Clean Air AdBlue is the solution to reduce emissions from Diesel vehicle engines and generators.

AdBlue® is a colourless, odourless, synthetically produced, 32.5 percent solution of Automotive Grade Urea in demineralized water. AdBlue® is non-toxic.

Since 1992, European legislation has required lower particulate (PM) and Nitrous Oxide (NOX) emissions from on highway diesel engines.

To help meet the even lower levels of NOX emissions set with the introduction of Euro 4 in October 2006, OEM's introduced selective catalytic reduction (SCR) to nearly all on highway commercial vehicles.

This technology requires an aqueous urea solution called AdBlue.

AdBlue is available in 2 litre bottles, 10 and 18 litre cans, 210 drums, 1,000 litre IBC's and Bulk.

PLEASE NOTE OIL DELIVERIES ARE U.K. MAINLAND ONLY

205L DRUMS, UNLESS PALLET QUANTITIES (4 DRUMS), ARE ONLY AVAILABLE TO THE FOLLOWING
POSTCODES HR, WR, SY & LD
