

## S.165654 3/8" BSP Single Section MF Control Valve Assembly

**Part No:** S.165654

**Price:** £427.93 (exc VAT) | £513.52 (inc VAT)

### Specifications

S.165654 3/8" BSP Single Section Massey Ferguson Control Valve Assembly

Special directional control valve for Massey Ferguson Tractors

This valve is assembled directly onto the lift cover

Working ports: 3/8" BSP

1 x Double acting spool section

Handle 1 : Ports are plugged, spool has detent control. This handle is used to change between external and internal hydraulics

Handle 2 : Working ports are 3/8" BSP. Double acting spool with spring centre control.

This handle is to control the external hydraulic function (implement/attachment of Tractor).

Oil returns from valve directly into the hydraulic lift head

For 1 x double acting application only 2 pipes and fittings are required

Ideal for operating log splitters, tipping trailers etc.

NB: Tractor models are for cableless platform tractors where the hydraulic lift cover is accessible.

Max working pressure Bar: 250

Posrts: 3/8" BSP

Single section assembly
