

SA90 Industrial Contact Adhesive 500ml

Part No: SA90

Price: £11.41 (exc VAT) | £13.69 (inc VAT)

Specifications

SA90 Industrial Contact Adhesive 500ml

SA-90 Adhesive Spray is an Industrial Heavy Duty Adhesive.

SA-90 Adhesive spray dries to provide a permanent extra strong bond.

SA-90 is supplied in aerosol for easy application.

SA-90 Adhesive spray is suitable for soft wood, hard wood, and plywood, metal, foams, fabric, felts, carpet, underlay, plastic laminates, MDF, hardboard, chipboard, plastic sheets and glass.

SA-90 adhesive spray can be used as an impact adhesive if applied to both surfaces to be joined.

If repositioning is required the product will allow this if applied to only one component, prior to assembly.

Spray adhesive can often be an alternative for white glue, hot glue, tape, and other adhesives, as long as the materials to be bonded are taken into account.
