Specifications

Echo SRM-237TES/L Brushcutter

Lighter weight, professional Petrol-engined loop handle trimmer with high torque.

The ECHO SRM-2621TES/L features a high torque gear case which makes it exceptionally powerful when clearing dense grass and brush.

Lower rpm with more power mean the blades cut consistently, retaining precision, whether you're trimming short grass or tall, thick brush.

High torque increases the power output of the tool making it comparable to a model with a 5cm³ to 10cm³ larger engine size.

Combine this with a professional grade ECHO 25.4cm³ engine.

Features ES start for effortless starting and a heavy duty air filter and you have a tool that will increase your productivity day in day out.

Powered by a 25.4cm³ ECHO engine, built in Japan to the highest standards, with a high torque gear case and robust, ergonomic design.

The SRM-237TES/L has been designed with an anti-vibration system to reduce user fatigue.

High torque controls the RPM so whether you're cutting through short grass or tall, dense brush you'll have the optimal power to cut cleanly without flattening.

This Garden Machinery product can be collected in-store or is only available for local delivery to the following local Postcodes HR, WR, SY & LD.

***Warranty Terms & Conditions.**

To maintain the 5 year warranty the mower must be serviced before the end of the first year of ownership and annually thereafter by an authorised Echo dealer.

Failure to keep the Mower serviced at these intervals will result in the warranty reverting to a standard warranty period.

(5 year warranty for domestic users only)
