### Specifications

Echo SRM-3021TES/U Brushcutter

The 30.5cc SRM-3021TES U-handle brushcutter features a high torque head.

With a 1:1.62 gear reduction ratio, it generates outstanding levels of torque – up to 50% more than previous models.

More torque means more cutting performance and by installing thicker line, the user can tackle a wider range of tasks with just one brushcutter.

Featuring a comparatively small engine, the unit is lightweight and features low levels of vibration, but has the cutting performance of a higher capacity machine.

The SRM-3021TES starts almost effortlessly thanks to the Easy Start system.

This product is part of ECHO's X Series range of "best-in-class" products.
