

VFM3136 Hydraulic Top Link

Part No: VFM3136

Price: £1369.14 (exc VAT) | £1642.97 (inc VAT)

Specifications

VFM3136 Hydraulic Top Link

These damped hydraulic cylinders from Walterscheid are the first hydraulic top links with an integrated shock absorber, designed to increase the efficiency of agricultural machinery.

The accumulator piston which houses the damping valve, is made of aluminium with low-friction seals designed to withstand high temperatures across a range of -20°C to 80°C.

In addition, the damped hydraulic cylinder provides increased comfort and safety with improved road-holding properties as well as reduced shocks and counter-shocks.

Fewer pressure peaks mean less wear, offering lasting contributions to better productivity and performance.

These new top links are compatible and interchangeable with existing standard top links and can be installed without additional components or the need for additional space.

Tractor end category 4

Implement end category 3

Tractor end type Knuckle

Implement end type Quick release

Max operating length 847mm

Min operating length 697mm

Stroke 150mm

Optional Extras

VFM3029 - Top link pipe kit

Part No:

VFM3029

Price:

£22.49 (exc
VAT)

£26.99 (inc
VAT)

VFM3133 - Quick Hitch Hydraulic Ram Hose Kit

Part No:

VFM3133

Price:

£62.77 (exc
VAT)

£75.32 (inc
VAT)
