Specifications

VLA1746 FFP2 Smart Mask With Valve 1 Pack of 20 Disposable Masks

Moldex FFP2 Smart mask with valve. 240512

- Box containing 20 masks.
- FFP2 masks may be used with contaminant concentrations up to 10 times the workplace exposure limit (WEL).
- They protect against harmful water and oil based particles. They don't protect against carcinogenic substances, radioactive particles, airborne biological agents of risk group 3 and enzymes.
- Common applications for an FFP2 mask include handling soft wood, metal, plastics (not PVC) and oil mist.

- Retains its shape due to the mesh structure
- Mask is supple allowing it to adapt and shape itself to the wearers face
- Loop-strap allows for easy fit and adjustment to maintain comfort whilst wearing
- Inspection EN 149:2001 + A1:2009
- Approval (EU) 2016/425
- 5 years shelf life from date of production.
