### Specifications

VLA1747 FFP3 Classic Mask W/Valve 1 Pack of 16 Disposable Masks

Moldex FFP3 classic mask with valve. 255516

- Box containing 16 individually packaged masks.
- FFP3 masks may be used with contaminant concentrations up to 20 times the workplace exposure limit (WEL).
- They protect against harmful water and oil based particles, as well as radioactive particles, airborne biological agents of the risk group 2+3 and enzymes.
- Typical applications for an FFP3 mask are for example handling heavy metals, hardwood, brake dust, radioactive substances, pathogens such as viruses, bacteria and fungal spores as well as stainless steel welding.

- Retains its shape due to the mesh structure
- Mask is supple allowing it to adapt and shape itself to the wearers face
- Loop-strap allows for easy fit and adjustment to maintain comfort whilst wearing
- Inspection EN 149:2001 + A1:2009
- Approval (EU) 2016/425
- 5 years shelf life from date of production.
