

VLA3076 12v Submersible Fuel Pump

Part No: VLA3076

Price: £51.15 (exc VAT) | £61.38 (inc VAT)

Specifications

A Convenient submersible pump suitable for handling light viscosity fluids such as diesel and coolant.

Compact diameter to allow insertion in vehicle fuel tanks and larger fuel storage tanks

Specification:

18l/m flow rate - 15 psi max pressure

2m hose with stainless steel nozzle

Integral inlet strainer / filter - ABS construction with Stainless steel body

H/D battery clips -1.4m power cable with inline on/off switch -50mm o/d
