Specifications

VLC1086 NOCO Jump Starter 24v 3000A

Introducing our most powerful lithium jump starters yet.

Designed for the largest, most challenging engine starts ever. With over 3000-amps of starting power, it can jump start petrol and diesel engines up to 32 litres.

- Safe and easy to use battery jump starter pack without the worry of incorrect connections or sparks.

Safely connect to any 24-volt battery with our mistake-proof design featuring spark-proof technology and reverse polarity protection.

- It jump starts almost every type of vehicle and equipment, including semi-trucks (up to class 8), motorhomes, coaches, buses, mining, agricultural, construction, and vocational equipment - 6, 8, 12, and 16 cylinder - and more.

Plus, an integrated digital battery voltmeter for enhanced diagnostics.

- Jump starters this powerful typically are enormous and weigh hundreds of pounds, but our high discharge lithium technology makes it the most compact and lightweight design in the world.

Weighing a mere 1 stone. And its portable carrying case makes jump starting more convenient than

ever.

- It is not just a lithium jump starter but also a portable power bank for recharging smartphones, tablets, and other USB devices.

With an ultra-bright 600-lumen LED flashlight with seven light modes, including emergency strobe and SOS.
