

VLC6156 LED Oval Work Light

Part No: VLC6156

Price: £83.72 (exc VAT) | £100.46 (inc VAT)

Specifications

VLC6156 LED Oval Work light OEM part no. AL202742

To suit John Deere Tractors

3200 Lumens

10-30v power input voltage range

Stylish, 'elliptical' LED work light with an impressive 3,200 lumen flood beam illumination.

Includes 8 x 5 watt CREE LED's.

Compact, egg shaped light profile requires minimal space envelope so ideal for close side-by-side mounting on the underside of front and rear cab roofs.

Can also be used for side and bottom mounted applications including cab fenders.

Stainless steel hollow bolt mount fitting to conceal wiring for a clean installation.

E-marked. ECE R10 approved with in-built electrical noise suppressor.

Measurements: Width: 112mm • Height: 121mm • Depth: 69mm
