Part No: VPD4031

Price: £35.32 (exc VAT) | £42.38 (inc VAT)

Specifications

VPD4031 Fuel Magnetic Conditioner 10mm

Scientifically proven, tested and used worldwide, this easy to fit, self cleaning fuel conditioner combats the growth and build up of Bacteria within diesel fuel.

Designed to be fitted to the fuel system prior to the primary filter.

This compact conditioning unit will not only prolong the life of filters but has proven to extend injection pump/ injector life, enhance combustion and improve fuel economy.

A "fit and forget" solution for combating the "Diesel Bug".

The VPD4030 can be fitted inline onto 8mm flexible fuel hose and clamped with hose clips in a matter of minutes.
