

XMS24MITRE Metabo 216mm Laser Cut Mitre Saw

Part No: XMS24MITRE

Price: £124.99 (exc VAT) | £149.99 (inc VAT)

Specifications

XMS24MITRE Metabo 216mm Laser Cut Mitre Saw

The XMS 216mm Laser Cut Mitre Saw - 230V, by metabo is as comfortable to carry as it is such a great XMS deal.

This metabo 216mm Mitre Saw Lasercut has such a compact, light weight design, it is suitable for one-handed transport, making it easy to move and carry.

The ergonomically-designed handles and saw head lock make for a comfortable transition.

There are robust die-cast aluminium designs for the highest demands and an effective dust extraction via integrated dust scoop, keeps the saw and work place free from debris.

Using the stop points allows for fast and precise setting of common angles.

The integrated laser provides an exact display of the cutting line (mains powered, no batteries required).

The saw has an infinitely extendable table width extension, removable to put long panels, slabs etc.

Underneath with a high sliding rear fence profiles for safe sawing.

A material clamp provides secure fixing of the work piece from the top or front and the saw head can be inclined to the left, with additional angle range for undercuts.

All scales and operating elements are visible from the working position and can be operated intuitively.

Easy saw blade change by means of spindle lock, so there is no dismantling of the pendulum protective cover.

There is also a bright LED work light for illumination of the cutting line (mains powered, no batteries required).

Specifications:

Input Power: 1,100W.

No Load Speed: 3,450/min.

Blade: 216 x 30mm Bore.

Turntable Setting (Left/Right): 47°/47°.

Max. Cutting Width: 90°/45°: 120/80mm.

Max. Cutting Depth: 90°/45°: 60/45mm, 90°/90°: 120x60mm.

Double Mitre 45°/45°: 80x45mm.

Cable Length: 2m.
