Specifications

XMS24PLANES Faithfull No.4 & No.60 1/2 Plane Set

This XMS No. 4 & No. 60.1/2 Plane Set by Faithfull is supplied in 2 zip-up canvas carry bags, designed to protect the planes against damage during transport or when in storage.

Provides the essentials you need for planing wood.

The planes you need for wood planing:

1 x No. 4 Smoothing Plane, designed for smoothing and final finishing.

Made with a quality grey cast iron body for strength and stability with precision ground base and sides for flatness and squareness.

Machined seatings eliminate movement and blade judder.

A lever cap with a brass locking screw secures the blade assembly and enables easy release for sharpening.

Wooden handles and guidance knobs maximise user comfort.

A solid brass blade adjustment nut completes the appeal of these traditional tools.

Cutter Width: 50mm.

Overall Length: 250mm.

1 x No. 60.1/2 Block Plane has the plane iron set at 13.5°.

It is particularly effective on end grain and plastic laminates.

Block planes are designed for end grain work or in any situation where a single-handed operation is required.

The low angle cutter and fully adjustable mouth - from wide for coarse work, to narrow for the fine shaving of awkward grain.

Cutter Width: 35mm.

Overall Length: 160mm.
