Specifications

XMS24SNIPS Crescent Wiss Straight Cut Aviation Snips

The XMS M-3R Aviation Snips - Straight Cut are light and particularly easy to handle.

The Crescent Wiss M-3R Metalmaster Compound Snips have self-opening, non-slip, serrated jaws for rapid cutting.

They are hot drop-forged from special molybdenum steel with comfortable colour coded, yellow vinyl grips.

The snips are fitted with compound lever action handles which are light and easy to handle, even when cutting tight curves.

There is also a convenient protective safety latch.

Cuts straight (or wide curves left or right in light stock) up to 1.2mm mild steel.

Size: 248mm (9.3/4in).

Cutting Type: Straight Cut/Curves.

Capacity: Low Carbon Steel: 18 Gauge/1.22mm
