### Specifications

XMS24SPECS Scan Flexi Specs Clear / Smoke Twin pack

These XMS Flexi Safety Glasses Twin Pack, by Scan, are worn for protection against low energy, high speed impacts.

These Flexible Safety Glasses are packed with features, including highly flexible arms, soft nose bridge for user comfort, as well as a UV, scratch and impact resistant lens with anti-fog coating.

The wrap-around single piece lens of these ultra-lightweight protective glasses also provides maximum peripheral vision.

Now with a 2024 protective fabric storage bags.

Conforms to EN166:1F – withstands low energy high speed impacts up to 45m/s (100mph) and EN170.

This Twin Pack contains:

1 x Pair of Clear Lens Safety Glasses for general indoor applications.

1 x Pair of Smoke Lens Safety Glasses for outdoor protection against excessive glare.
