Specifications

XMS24TICTAC Dewalt 25 Piece PZ2 FlexTorq Impact Bit Set

These XMS Extreme Impact Torsion Pozidriv Bits, made by DEWALT FLEXTORQ™, offer much more than just a great price.

They have a 15° torsion zone allowing the screwdriver bit to flex rather than break.

The full fit head prevents rounding of the screw head and 'cam out' (bit head slipping out of the screw head due to the turning force).

The magnetic screw lock enables tasks to be completed quicker and easier, reducing instances of dropped or lost screws.

Supplied in a TOUGH CASE+, this is part of a connectable case system which is TSTAK™ compatible.

Individual TOUGH CASES can be clipped together for easy transportation.

This 25 piece Flextorq Impact Bit Set contains:

20 x 25mm PZ2 Extreme Impact Bits.

5 x 57mm PZ2 Extreme Impact Bits.

Supplied with a magnetic, Impact Ready Bit Holder.
