### **Specifications**

XMS25HACK Bahco 300mm (12") Hacksaw & 150mm (6") Junior Hacksaw Pack

The XMS 300mm (12") Hacksaw & 150mm (6") Junior Hacksaw Twin Pack are each made by Bahco.

300mm (12") Hacksaw

The larger Hacksaw is supplied with the 300mm (12") Sandflex® 24 TPI bi-metal blade.

The hacksaw is comfortable, easy to use, a lightweight hacksaw frame for all-round use.

Alternative 90° blade mounting for flush cutting operations.

The slim design improves access in confined spaces and makes storage easy.

The comfortable and special grip at the front provides better support for the guiding hand for superb performance.

Reliable and shatterproof Sandflex® bi-metal blade 24 TPI for excellent cutting performance.

150mm (6") Junior Hacksaw

The Junior Hacksaw version comes with steel material frame and steel tubular handle. It is orange powder-coated and complete with 150 mm (6") 32 TPI metal cutting blade. The small hacksaw frame is for universal use and ideal for smaller cutting jobs.
