Specifications

XMS25HEXKEY Faithfull Colour Coded Hex Key Set

The XMS Multicoloured Hex Key Set from Faithfull contains a selection of professional quality keys.

Made with S2 steel which makes it highly resistant to impact.

The keys are colour-coded to allow for easy size identification.

They are held together by a plastic clip with a twist and lock action to secure the keys into their slots.

The ball end design of the keys enables access to deep-set screws or hard-to-reach places at offset angles.

The handy storage caddy ensures the key set can be safely stored in pockets and toolboxes.

The key sizes are clearly shown on the Caddy side.

Metric Sizes: 1.5, 2.0, 2.5, 3.0, 4.0, 5.0, 6.0, 8.0 and 10.0mm
