Price: £149.66 (exc VAT) | £179.59 (inc VAT)

Specifications

XMS25HORSE Roughneck Sawhorse Twin Pack

The New XMS Colt Folding Steel Sawhorse (Twin Pack), produced by Roughneck, really is a superb, some would say aspirational, well thought-out pair of kit, and at a stunning XMS price.

Each Roughneck Sawhorse has a 589kg single load capacity, but this increases greatly to 1178kg when they are paired.

These steel sawhorse have independently height adjustable legs 618-820mm with swivelling feet for stability on uneven ground and non marking pads for surface protection.

They also have pipe support guides for easy cutting of 15 & 22mm pipes and dowels, and extendable timber supports to easily create a stable work table.

Including an anti-slip surface, and support arms for upright cutting, this pair truly are a well put together pair of Roughneck sawhorse.
