### Specifications

XMS25LEVEL3 Faithfull 3 Piece Level Set (240mm, 600mm & 1200mm)

These XMS Box Section Spirit Levels from Faithfull are ideal for both DIY and professional use.

They are manufactured from aluminium extrusion with a resilient powder-coated finish, making them lightweight, strong and easy to keep clean.

The bottom face is milled for high flatness, overall adding up to a fine all round Get Kitted Out deal.

Each level, of the three, is fitted with 3 solid vials, 2 plumb and 1 horizontal, which have a measurement accuracy of  $\pm 0.5\text{mm/m}$ .

The horizontal vial is dome-shaped to allow reading from any viewing angle.

The shock-resistant, rubberised end caps protect the level if dropped, reduce slippage on the measuring surface.

They feature hanging holes for easy storage.

This Faithfull Box Level Set contains the following:

1 x 60cm (24in) Box Level 3 Vial

1 x 120cm (48in) Box Level 3 Vial

1 x Magnetic Scaffold Level 24cm.

The magnetic scaffold level has a strong die-cast body shaped for easy handling and is ideal for scaffolders, pipe fitters and steel erectors.

Flush mounted magnets permit hands free measuring on steel surfaces.

The solid acrylic vials are accurate to  $\pm 1\text{mm}$  per metre, fitted with three vials: horizontal, vertical and 45 degrees.
