Specifications

XMS25MITRE Metabo 216mm Cross Cut Mitre Saw

The XMS Single Bevel Sliding Mitre Saw 240V is such a versatile GKO product.

The Metabo KGS 216 MN Sliding Mitre Saw 1500W in the 240V Version has a die-cast aluminium work bench and a sliding function for wide work pieces.

It is ideal for sawing wood, coated panels and plastics.

It has a freely adjustable table extension on both sides with a practical support surface and integrated crosscut fence.

Its non-slip rubber surface on its handle and upper carry handle ensures excellent grip, and the saw also has lateral handles.

For working in poorly lit areas, the mitre saw has an integrated working light.

For accurate cutting, the saw has a Precision Cut Line (PCL): precise shadow cutting line without re-adjustment thanks to cleverly positioned LED, and all scales are visible from the working position.

In addition, the turntable allows precise angle adjustment, and it has integrated cutting depth control.

To ensure safety, the Metabo KGS 216 MN Sliding Mitre Saw has a transport lock and a cable winder.

The saw is also supplied with a chip collection bag to ensure clean air at the workplace.

The saw blade is easy to change, and the machine is supplied with a tool for this.
