

Z011K11L Lithium Complex Shuttle Cartridge (Red)

Part No: Z011K11L

Price: £3.95 (exc VAT) | £4.74 (inc VAT)

The following prices are based on order quantity.

Quantity	Price per 12
1 - 11	£47.40
12 or more	£35.88

Specifications

Z011K11L Lithium Complex Shuttle Cartridge (Red)

A specially developed multi-purpose lubricating grease for all anti-friction and plain bearing applications.

This grease has exceptional stability performance over a wide, elevated temperature range and can allow longer periods between re-lubrication compared with standard greases.

Lithium Complex is recommended for use in highly loaded industrial and automotive applications such as wheel bearings, pump bearings etc. It has been primarily designed as a wheel bearing and chassis grease.

Distances of up to 70,000 miles between re-lubrication are possible with Lithium Complex. It may replace ordinary lithium greases in many arduous industrial applications. It is suitable for use in high pressure greasing equipment.
