

Z111K11 Boom Grease 400g

Part No: Z111K11

Price: £7.95 (exc VAT) | £9.54 (inc VAT)

Specifications

Z111K11 Boom Grease 400g

Boom grease is a premium quality, extreme pressure, lithium complex grease, containing PTFE and anti-corrosion agents.

Predominantly designed for the lubrication of telescopic booms.

It can also be used in all anti-friction and plain bearings subjected to high load, and where water washout or ingress is a problem.

Boom grease is recommended for use on telescopic and sliding boom apparatus, found on telehandlers / teleporters, portable cranes, and other materials handling equipment.

Boom grease can be applied by hand, or by using a standard grease gun.
